

# *Care Management Medical Director Opportunity in Beautiful Bangor, Maine!*

Eastern Maine Medical Center has an exciting opportunity for a physician leader to join our Care Management Team.

The Care Management Medical Director is an administrative role that will support Care Management and Utilization Review initiatives. The CM Medical Director will be responsible for upholding the Conditions of Participation regarding Utilization review, including managing admission, concurrent and retrospective review of cases referred by case management or the department's professional staff. In addition, the CM Medical director will chair the UR committee and act as a champion for case management personnel on physician related issues and act in support of case management processes and procedures.

The CM Medical Director will be a credentialed member of the EMMC medical staff and must have an unrestricted license to practice medicine in the State of Maine.

Preference shall be given for individuals with prior experience as a physician reviewer for Medicare, Medicaid PRO, a managed care company, as a hospital medical director or in a leading collaborate groups in performance improvement.

Eastern Maine Medical Center is a 411-bed regional tertiary-care center, part of EMHS, a progressive, regional, non-profit, health system ranked among the top 100 integrated health systems by IMS. EMHS is driving innovation in healthcare for our region, through collaborative engagement, shared clinical protocols, group purchasing, and shared IT systems among member organizations.

Bangor is a regional hub located in eastern Maine, on the banks of the beautiful Penobscot River. Bangor and the surrounding communities are family friendly, culturally diverse, offer an array of year round recreational activities, and easy access to the coast, lakes, rivers, and mountains.
