Job Title: Physician Advisor Needed in Flagstaff AZ
Date Posted: 11/02/2016
City: Flagstaff
State: AZ
Job Type: Full-Time
Experience: 2 to 5 years
Salary Range: \$234,000 - \$260,000

The Care Management Department has a full time Physician Advisor for the purposes of consultation, education, support and interventions in matters related to patient safety, quality of care, resource utilization, medical staff documentation for medical necessity of admission, appropriate level of care, and continued hospitalization, and to serve a primary resource and liaison with payers in response to denials of payment.

- Position is responsible for providing the organization with leadership and medical direction for resource utilization management/care coordination and progression of care as patients transition through the continuum of care.
- This position works closely with Director, Care Management and Care Coordination staff, VPMA/CMO, Program Medical Directors, and Medical Directors of all insurance plans to ensure that professional medical services are coordinated and rendered in an appropriate and timely manner.
- This position originates and actively participates in educational programs for the Care Coordination staff, other allied health staff and physicians in the area of resource management, efficient progression of care, patient quality and safety.
- This position actively participates in the delivery system's performance measurement and process improvement efforts to ensure that quality care is provided to patients.
- Position serves as a visible and persistent resource to the medical staff regarding statutory and contractual obligations.
